Agate Glass Collection

As its name suggests, Agate is evocative of the glass-like natural layered silica created by volcanic stone formations. With a nod to old world Venetian glassmakers, our Agate mosaics are created using the same processes from molten silica; hand-poured, blending transparent and opaque colors and natural and opalescent finishes into a unique, luxurious glass designed to please the most discriminating eye. Agate is available in 14 dramatic color blends and two finishes, Pearl and Silk (custom blends are also available). Agate also blends perfectly with our line of Monochromatic Glass Liner Bars. Each piece is hand-poured and unique, designed with a certain amount of variation and variegation of color, tone, texture and shade for a distinctive appearance. Our handmade process incorporates creases, wrinkles, waves, bubbles and other surface effects indicative of handmade glass, all designed to capture light and enhance the final beauty of the project.
