

A high-angle photograph of men's fashion items. Two brown leather brogue shoes with laces are positioned on the left side of the frame. To the right, a dark brown fedora-style hat sits on a grey carpet. A wooden chair leg is visible in the upper center. The floor is covered with a light-colored rug featuring a large, repeating white scalloped pattern. A thin black rectangular box is superimposed on the rug in the upper left quadrant.

Like the elegant suit of a well dressed gentleman, Sterling Row tiles are exquisitely tailored in both shape and color. Created from a combination of porcelain tile and marble, in tones of gray, white and black, the designs of Sterling Row are inspired by the elegant feel of fine fabrics, the richness of burnished leather and the luxuriously appointed shops of the finest tailors in London, Manhattan and Paris. Sterling Row offers the look of exquisite wood and marble inlay that can be used in any space of the home, and most commercial applications, with minimal maintenance.
